

FACTSHEET

# DOC4TC – Document Output Center for Teamcenter®

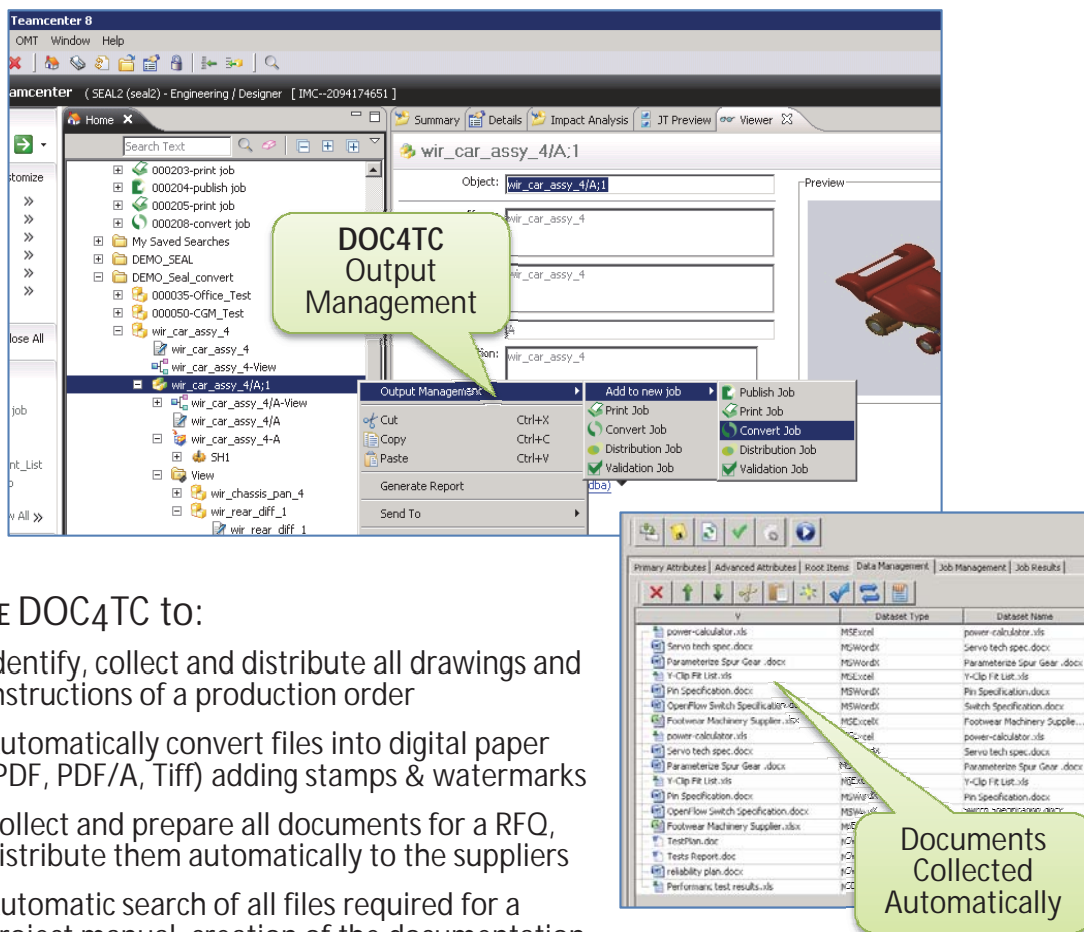

**Full Teamcenter (TC) Integration:** Automatic collection of documents attached to Teamcenter controlled objects or structures.

**Smart & Flexible Data Collection** for all relevant TC Items and structures

- ▶ Supports **Workflows**
- ▶ Pre-configured **structure explosions** for objects
- ▶ **Templates** for complex processing requirements easily managed by predefined settings

Collect and automate

- ▶ **Convert** between various file formats (e.g. CAD/Office to PDF/TIFF)
- ▶ **Stamp** with TC metadata
- ▶ **Distribute** through fax, email, web
- ▶ **Publish** into a structured document
- ▶ **Distribute** to enterprise print devices

The screenshot shows the Teamcenter 8 interface. On the left, a tree view displays a CAD assembly structure for 'wir\_car\_assy\_4'. A context menu is open over the 'wir\_car\_assy\_4/A:1' object, showing options like 'Cut', 'Copy', 'Paste', 'Generate Report', and 'Send To'. A callout bubble points to this menu with the text 'DOC4TC Output Management'. On the right, a 'Preview' window shows a 3D model of a red cart. Below the main interface, a table displays a list of documents collected automatically:

Dataset Type	Dataset Name
MSEXcel	power-calculator.xls
MSWordx	Servo tech spec.docx
MSWordx	Parameterize Spur Gear .docx
MSWordx	Y-Clip Fit List.xls
MSWordx	Pin Specification.docx
MSWordx	Switch Specification.docx
MSWordx	Footwear Machinery Supplier .docx
MSWordx	power-calculator.xls
MSWordx	Servo tech spec.docx
MSWordx	Parameterize Spur Gear .docx
MSWordx	Y-Clip Fit List.xls
MSWordx	Pin Specification.docx
MSWordx	OpenFlow Switch Specification.docx
MSWordx	Footwear Machinery Supplier .docx
MSWordx	TestPlan.docx
MSWordx	Tests Report.docx
MSWordx	reliability plan.docx
MSWordx	Performanc test results.xls

A callout bubble points to the table with the text 'Documents Collected Automatically'.

## USE DOC4TC to:

- Identify, collect and distribute all drawings and instructions of a production order
- Automatically convert files into digital paper (PDF, PDF/A, Tiff) adding stamps & watermarks
- Collect and prepare all documents for a RFQ, distribute them automatically to the suppliers
- Automatic search of all files required for a project manual, collection of the documentation
