

PLOSSYS® netdome

PLOSSYS INFOCLIENT

DISPLAY AND MONITORING OF OUTPUT JOBS AND DEVICE STATE //

The infoclient for PLOSSYS® netdome is an easy to use tool for display and monitor output jobs. Additionally detailed information regarding devices and jobs can be displayed. Information is updated automatically or when required.

In addition the PLOSSYS® Infoclient can be activated through events – e.g. for error message or through a job completion message.

The screenshot shows the 'Infoclient for plossys' window. It features a menu bar with 'File' and 'Info', and a 'State Time' field showing '2003-08-21T15:16:23' with an 'Update' button. The main area contains a table with the following data:

Job Number	Job ID	Paper Type	Color Type	Queue Name	Copies	User Name	Job Status
9	multi_tiff.tif	Paper	Black/White	HPLASER	1	plossys	Executed
10	pdf_dina1_l.pdf	Transparency	Black/White	HPDESIGN	0	plossys	Executed
11	pdf_dina2_l.pdf	Transparency	Black/White	HPDESIGN	0	plossys	Executed
12	pdf_dina3_l.pdf	Transparency	Black/White	HPDESIGN	0	plossys	Waiting
13	pdf_dina4_l.pdf	Transparency	Black/White	HPDESIGN	0	plossys	Waiting
14	pdf_dina4_p.pdf	Transparency	Black/White	HPDESIGN	0	plossys	Waiting
15	a4-border.ps	Paper	Colored	Rowe	0	plossys	Executed
16	a3-border.ps	Paper	Colored	Rowe	0	plossys	Executed
4	farb_wmill.tif	Paper	Colored	HPLASER	0	plossys	Executed
5	tdin_all.tif	Film	Black/White	HPLASER	1	plossys	Executed
6	harley.tif	Any	Any	HPLASER	4	plossys	Executed
7	hubschr.tif	Any	Any	HPLASER	2	plossys	Executed
8	multi_pdf.pdf	Paper	Any	HPDESIGN	2	plossys	Executed

Below the table is a log of messages:

Date/Time	Sender	Message
2003-08-21T15:16:16	System	Job multi_tiff.tif (No.9) is ready
2003-08-21T15:16:08	System	Job tdin_all.tif (No.5) is ready
2003-08-21T15:15:49	System	Queue HPLASER has been started

The screenshot shows the 'HPLASER Information' dialog box. It has an 'Exit' button and a table of items and values:

Item	Value
CombinedState	
Comment	no color
Department	Development
Input0	
Input1	
Input2	
Input3	
Input4	
Input5	
Internal Queue Name	HPLASER

Below this is a 'Drawers' section with a table:

	Papersize	Medium
Drawer 1	Sheet A4	Paper
Drawer 2	Sheet A4	Paper

PLOSSYS netdome

::: BENEFIT

Quick and easy information by all output events – an enduser dream, which can be ideally realized through the PLOSSYS® Infoclient.

Waiting times and administrator costs can be saved. Devices can be used more extensive and multiple outputs can be avoided by previously unclear processing. PLOSSYS® Infoclient offers security and transparency.
