

FACTSHEET

Stamp & View for SAP® DMS

➔ VIEWING WITH STAMPS AND WATERMARKS

// Document data and status information are visible when viewed. Configurable data out of SAP are mirrored into the original file according to the stamp-before-view method. Thus, important information for document controlling is visible when viewed or when printed.

Stamp & View for SAP DMS

::: BENEFIT

ISO 9000 conform document controlling, also at viewing. TIFF and PDF documents are always displayed with the valid SAP document information data set.

These data set is also printed via output functions within the viewer. Thus, mistakes are avoided.

By using a standard configuration, type and contents of additional labelling information for PDF and TIFF are uniform and valid for all related viewing applications.

::: LAYOUT PARAMETER

Adjustable via editor with pre-viewing function.

Text attributes

- Font size
- Color
- Text alignment (center, left or right)
- Font line width
- Font type, more than 50 types are selectable

- SAP Viewer, EAI/ECL, Imaging, Imagenation
- Other PDF viewing tools
- Other TIFF viewer

::: SAP INTEGRATION

- As workstation application
- Business AddIn for integrated SAP viewer
- Easy DMS Support with DMS view/server version
- ITS (DMS-VWX)
- SAP document distribution (DMS VWX)
- SAP portal (DMS VWX)
- SAP DMS export (DMS VWX)

::: CONFIGURABLE STAMP DATA

- DIS basic data
- Class features
- Date/Time
- Environment variable
- User data
- Status protocol
- Status short/long text
- Revision
- Various version data
- Text elements

::: WORKSTATION TRANSFER

FTP, HTTP, and KPRO support

::: SCOPE OF DELIVERY

SAP Transport and stamp program for client or server

::: CONFIGURABLE USEREXITS

- For stamp data
- Identification of additional editing and viewing functions

::: SYSTEM REQUIREMENTS

Windows or UNIX as client or server platform.

::: RELATED PRODUCTS AND OPTIONS

RM-VIEW / RM-VWS

Stamp & View für SAP Records Management

AL-VIEW/AL-VWS

Stamp & View für SAP Archive-Link

::: PRODUCT CODE

SP-VIEW

DMS-VWS und DMS-VWX (extended integration functions)

::: LICENSING

Each process methode (input/output/server) and location; no user number limitation.

::: INSTALLATION

- By SAP basis as Transport
- By SEAL Systems on the stamp server
- No actions or installation necessary at the front end
